Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/24/2006 has been entered. Claims 128-148 are pending.

Terminal Disclaimer

2. The terminal disclaimer filed on 10/24/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on U.S. Patent application number 10/755,869 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment (to the claims) was given in a telephone interview with Mr. Thomas J. Perkowski (33,134) on 11/7/2006. The

examiner's amendment was necessary in order to provide consistent terminology in claim 128 and provide proper antecedent basis for "said bar code symbol" in claims 147 and 148.

The application has been amended as follows:

In the claims:

Claim 128, line 3: "bar" has been deleted.

Claim 128, line 12: "bar" has been deleted.

Claim 128, line 19: "bar" has been deleted.

Claim 128, line 55: "bar" has been deleted.

Claim 147, line 1: "128" has been replaced with --146--.

Claim 148, line 2: "128" has been replaced with --146--.

In the specification:

The first paragraph on page 1 of the specification (which was amended in the preliminary amendment filed on 7/3/2003), line 3: --, now Patent 6,595,420-- has been inserted between "1999" and ".", in order to update the continuing data.

Allowable Subject Matter

4. Claims 128-148 have been allowed over the prior art of record.
5. The following is an examiner's statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or fairly suggest a wireless

automatically-activated code symbol reading system wherein said device controller is programmed to automatically detect when said wireless hand-supportable code symbol reader is located inside of said predetermined RF communication range based on measuring the strength of said detected reference signal and thereupon to automatically transmit to said first RF-based transceiver the symbol character data string produced at substantially the same time when said data transmission control activation signal is generated while said wireless hand-supportable code symbol reader is located inside of said predetermined RF communication range; in combination with the other limitations as recited in claim 128.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
